# Why choose De Montfort University

Founded in 1870, De Montfort University (DMU) Leicester has grown into a global institution with 26,000 students and 2,600 staff. Our passionate and enthusiastic lecturers have excelled in the National Teaching Fellowship awards – the most prestigious awards for excellence in higher education. Our academics have industry experience, and our researchers have made a real difference in people's lives.

Our courses embed employability in their curriculum, and our research feeds into students' learning. DMU Leicester has been ranked in the top 20 universities for graduate prospects in The Sunday Times Good University Guide 2020. Previous DMU graduates have gone on to win Oscars and work with organisations such as the BBC, HSBC, Nike, BMW and the NHS. At DMU Dubai, we welcome students from all backgrounds and are proud to offer the perfect combination of award-winning teaching, excellent facilities and a fantastic student experience.

## Schools and Departments

All De Montfort University (DMU) students belong to one of our four faculties. Each faculty delivers a wide range of courses to students, oversees world-changing research, and fosters enviable commercial links that inform our teaching and ensure DMU courses are relevant to modern employers.

**The Faculty of Business and Law** delivers a wide range of undergraduate and postgraduate courses, including accounting, law, politics, marketing and business studies, designed with employability in mind.

## Education 2030

We want to ensure you have the best learning experience possible and a supportive and nurturing learning community. That's why we're introducing a new block model for delivering the majority of our courses, known as Education 2030. This means a more simplified timetable where you will study one subject at a time instead of several at once. You will have more time to engage with your learning and get to know the teaching team and course mates. You will receive faster feedback through more regular assessment, and have a better study-life balance to enjoy other important aspects of university life.

## Course overview

Project management is crucial in all business fields, from the financial sector and information technology to healthcare and public services. With more organisations defining their activities as projects, the demand for qualified project managers is growing.

This course has been designed to meet the increasing demand for effective project management across all industries and sectors. The system emphasises equipping students with skills and expertise to plan and practice project management in global business and social environments and emerging trends influencing project management, such as virtual and hybrid work.

It provides a career entry, or further development, in the discipline of Project Management, beyond its traditional confines of engineering and construction, as applicable to enterprise management theory and practice. A central emphasis of the programme is a focus on responsible project management (RPM) to assist students in understanding how project management can impact and improve society.

## Key features

- This course considers emerging trends within Project Management, such as flexible and virtual project teams, to provide you with the most up-to-date knowledge.
- The course provides an emphasis on equipping students with skills and expertise to both plan and practice in project management in global business, social environments and emerging trends projects.
- The module features Emerging Trends and Professional Frameworks, Managing Projects for Success, Organisational Project Management, Dynamic Influence for Governance from the enterprise perspective and strives to develop your personal SWOT analysis for career realisation.
- The programme leaders are experienced professionals who ensure students receive a high-quality education. They are readily available to answer any questions or concerns students may have regarding the accreditation process or the course content.
- DMU Dubai students can now benefit from the Industry Advisory Board, which comprises leading experts and professionals at the enterprise level. The board provides valuable insights and guidance to ensure the curriculum remains relevant and current with industry trends and demands.

# Teaching and assessments

You will be taught through a combination of workshops, lectures, projects and online resources.

Over the whole programme, there is a varied mix of assessment including: presentations, case study analysis, individual exercises, report writing, and essay writing. These are developed during the module with the opportunity for in-class formative feedback. Learners will also be issued in advance with a proposed timetable of assessments in order to ensure that academic work is timed appropriately and that students are provided with an opportunity to effectively plan and manage their time and workloads

This is a full-time course and in total you should be prepared to devote approximately 2 hours of lectures, 6 hours of workshop and 2 hours of asynchronous activity each week.
